

III. Amendments to the Drawings

Please replace the original sheets 13 and 15 of drawings with the attached sheets 13 and 15 containing Figures 15 and 17.

In Figure 15, reference number 244 and lead line have been added.

In Figure 17, reference number 244 and lead line have been added.

IV. Remarks

With this RCE, claims 1 through 26, 38 and 41 are presented exactly as they were allowed in the prior examination. This RCE includes additional claims 63 through 73. The new claims are submitted to ensure coverage of the invention embodiments shown by Figures 15 and 17 through 19. For those embodiments, a side rail having the same features of the side panels as described in the currently allowed claims is used. The side rails are affixed to a side panel in these embodiments. Except for the name used to describe the component; namely, a side panel in the prior claims, and side rails in the new ones, the claimed features are identical. New claim 63 is identical to allowed claim 1 except for the element name change and related changes. The new dependent claims 64 through 70 are taken from other allowed claims. New dependent claims 71 through 73 are related directly to the above-referenced embodiments. Minor specification amendments and drawings revisions are provided to make corrections.

Reconsideration of this application in view of the above amendments and remarks is herein respectfully requested.

Respectfully submitted,

May 26, 2010
